Referrals

An important aspect of general practice is the provision of continuity of care. To ensure that you receive the best possible care, we need to see you before referring you to a specialist. On receipt of your referral it is highly recommended that you schedule an appointment with the specialist as soon as possible, as often there is a 4-6week waiting period.

Your GP may be able to request an urgent appointment should they feel that your condition requires immediate attention. (This is done at the time of your referral). **We are unable to 'back date' referrals.**

Repeat Prescriptions / Lost Forms

Most repeat prescriptions require an appointment as in most cases ,it is necessary for the doctor to re-examine you. Occasionally and at the doctor’s discretion, a script or referral may be provided without an appointment .(A \$30.00 pre paid fee may apply) .

If you have lost a prescription, pathology request from or referral this can be replaced without an appointment. (A \$30.00 pre paid fee may apply) .

Results , Recalls and Follow–Ups

Doctors are unable to discuss test results over the telephone due to medico-legal requirements. Therefore, follow up appointments are required. For all other results, Reception will call and schedule an appointment as directed by the doctor.

The doctors at this medical practice will include you (unless otherwise notified) in our database for reminders such as pap smears, immunisations and other preventative health care issues.

Contacting your Doctor

Your doctor is accessible by phone, however, we ask that phone calls are kept to a minimum and that you simply schedule an appointment should you need to discuss an issue with them, this appointment could be a telehealth appointment. This will also assist in avoiding disruptions to consultations in progress.

Reception can promptly email the doctor internally and request a return phone call to be made based upon the urgency. Please indicate to the receptionist the general nature of your call, as in many cases, they will be able to assist you with any queries or concerns that you may have.
